Continuing Education Info

All master electricians must have their 16 hours of CE met by February 28, 2023

CE Check-in and Class Times

Check-in: 7:30am

Class: 8:00 am – 4:30 pm

In-Person Participants: Lunch and snacks included!

Livestream Info and Requirement:

You must agree to have your camera turned on so that you can be seen at all times, except for the scheduled breaks. You will be able to interact with the class and ask questions. We will email you a link to join the course the week of the class.

CE Credits:

- To **complete 8 CE hours**, you'll need to attend either Day 1 or Day 2.
- To **complete 16 CE hours**, you'll need to attend BOTH Day 1 and Day 2.

Continuing education hours count towards CE credit in Iowa, Minnesota, Nebraska, and North Dakota.

Cancellation Policy:

If circumstances force you to change your schedule, we'll be happy to move you to a different Continuing Ed class that works better for you. Contact us to make those arrangements.

We need a minimum number of students to hold an electrical training class. If there are less than the required number registered and we need to cancel, we will contact you a minimum of five days in advance of the scheduled class. Refunds will be provided.

Keeping Electricians Smart

What We Do:

For 20 years, Sunde School Electrical Training has been helping electricians stay current and take the next steps in their careers.

Join one of our classes, and you'll learn how to navigate the 2023 National Electrical Code, giving you confidence and expertise in even the most difficult situations.

Our in-depth training includes:

Continuing Education Credits: in-person or live-streaming weekend classes for electricians licensed to work in Iowa, Minnesota, Nebraska, and North Dakota. The course's content has been approved by the Minnesota Department of Labor and Industry and by the oversight agencies of Iowa, Nebraska, and North Dakota.

Test Prep: take your Journeyman, Master, or Maintenance Minnesota State Licensing Exam with confidence. Classes meet in-person weekly and last approximately 4 months.

Customized Electrical Training: onsite continuing education at your location. We can address issues relevant to your specific situation or focus on safety, code update changes, or other specialized training needs.

A family-owned and run electrical education service...

Jon Sunde, Owner, Master Electrician, and Instructor: Jon has 30 years of experience in the electrical industry and has been bringing his love of "all things code" to his students since 2001.

Ellen Sunde, Owner, Administrator, and Organizer: For 15 years, Ellen has managed Sunde School Electrical Training. She brings her talents of organization, attention to detail, and friendly customer service to each student, as well as her homemade goodies during class.

Jon and Ellen are excited to be part of your journey and help you succeed in the electrical industry!
